

Evolution of the number of cities throughout 20000 iterations when beta = 1.000

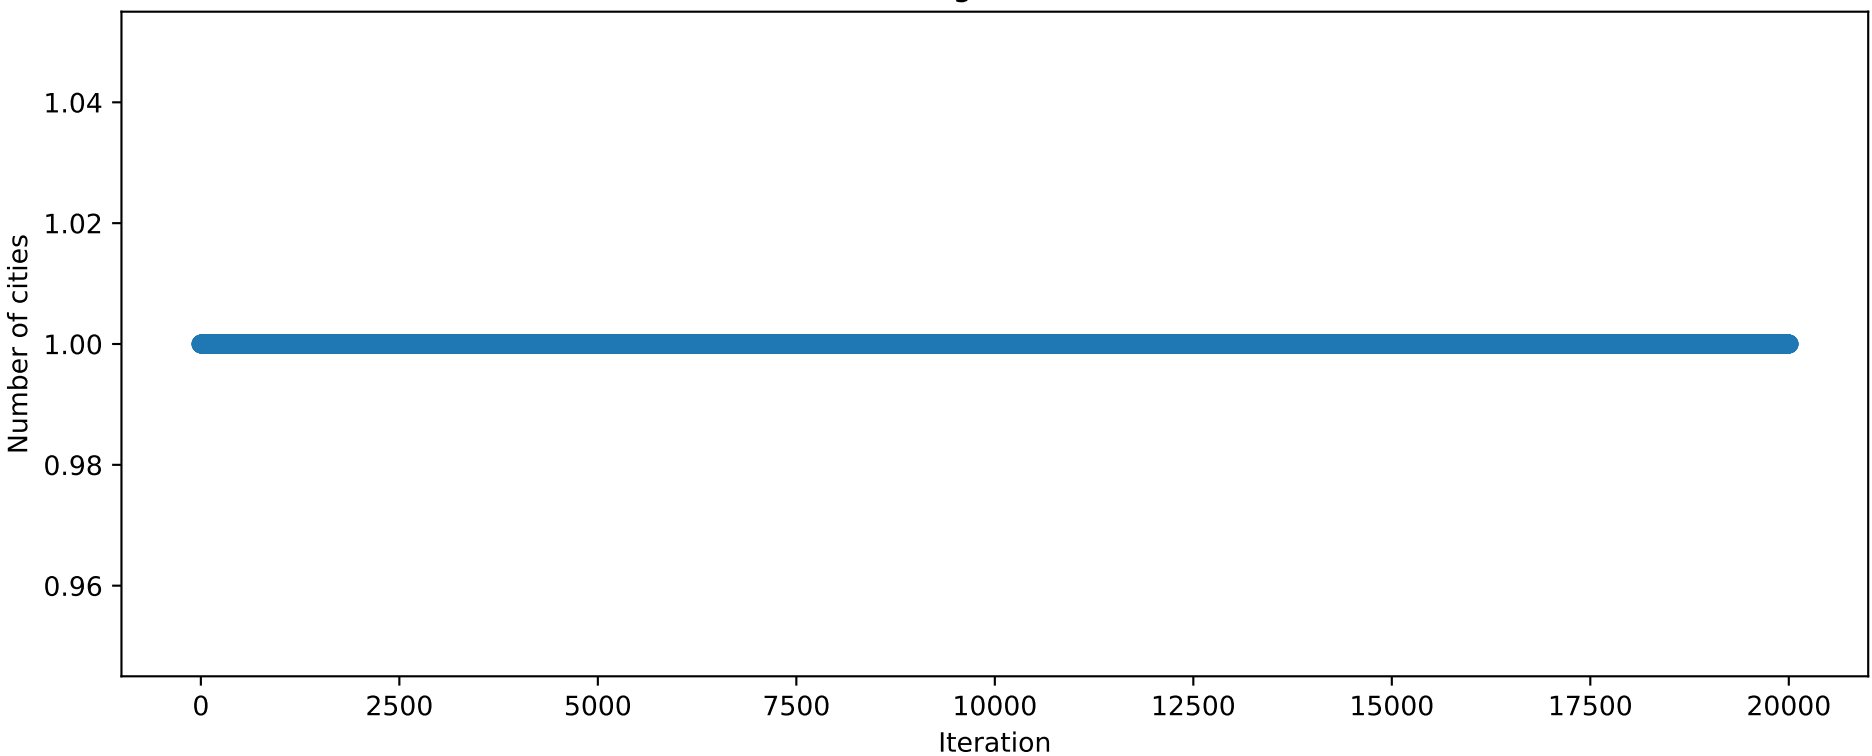

Evolution of the number of cities throughout 20000 iterations when beta = 3.162

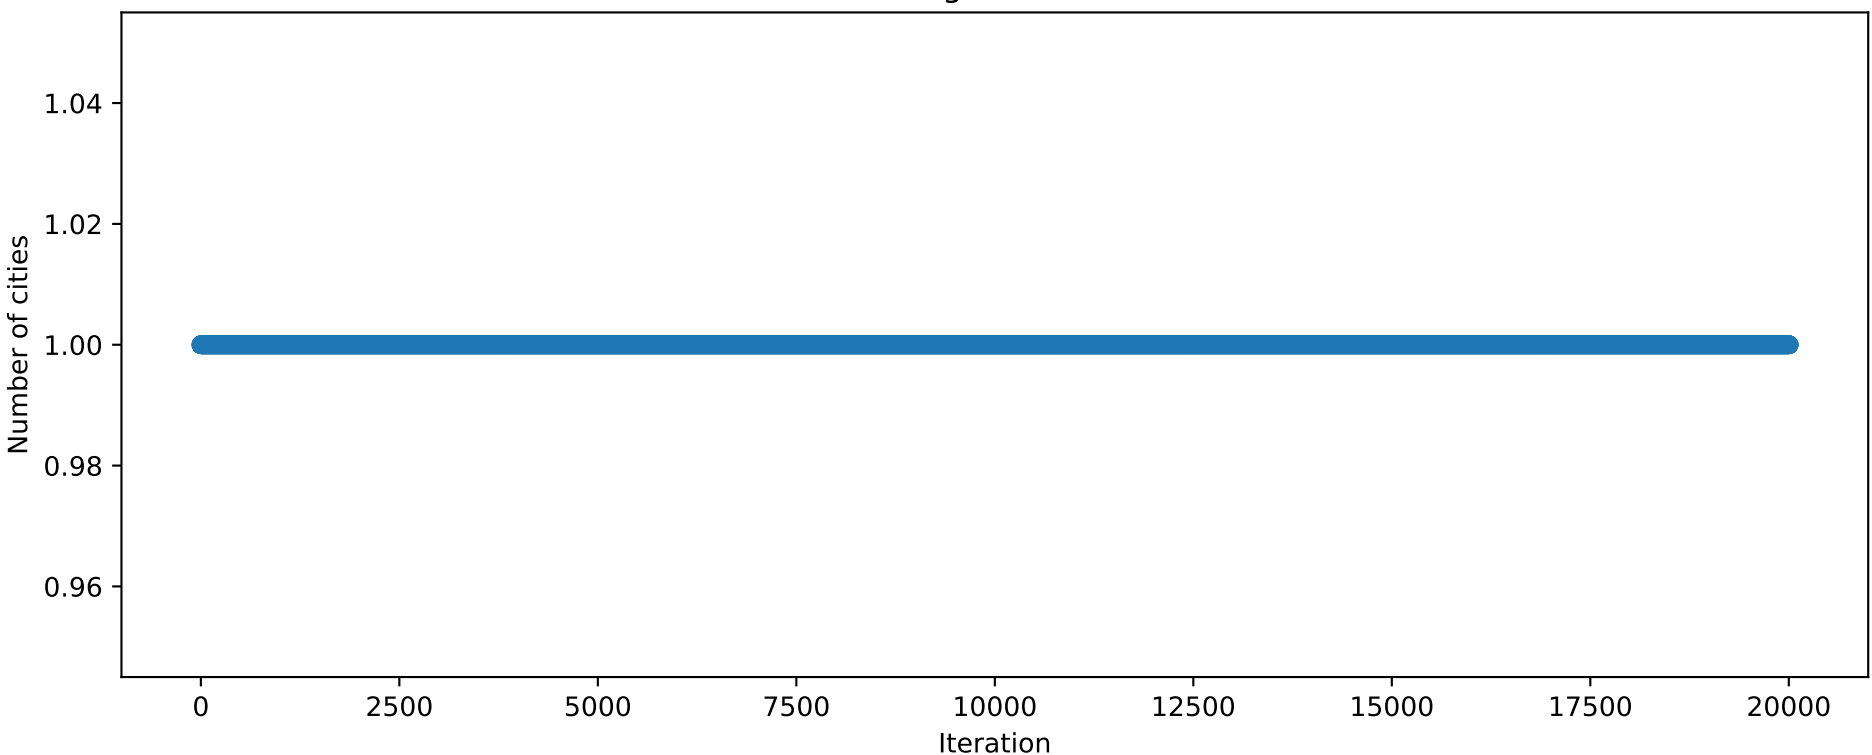

Evolution of the number of cities throughout 20000 iterations when beta = 10.000

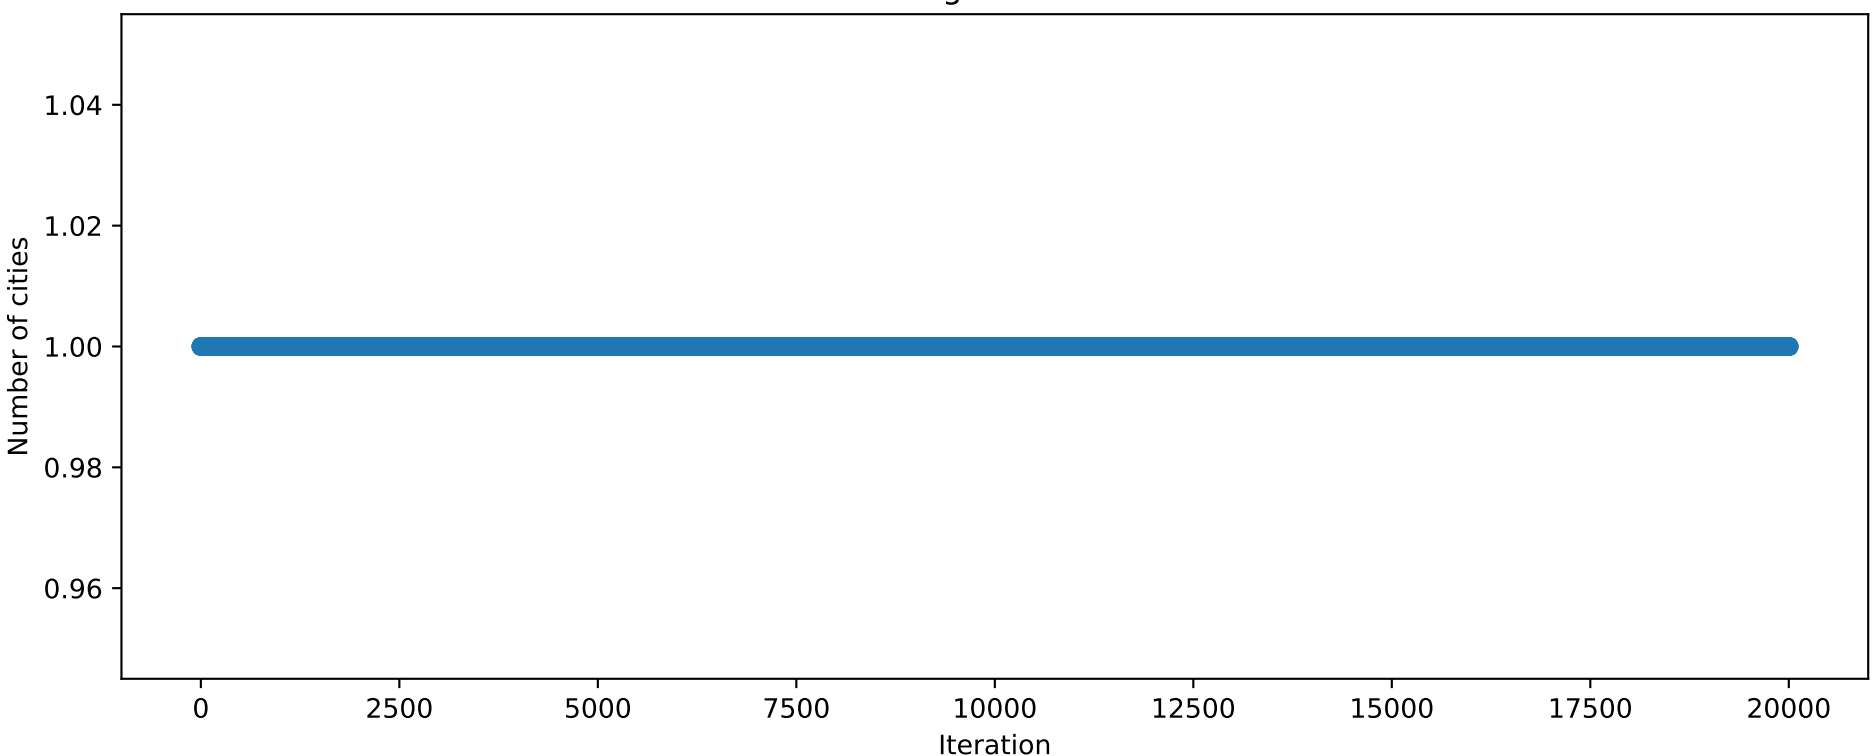

Evolution of the number of cities throughout 20000 iterations when beta = 31.623

Evolution of the number of cities throughout 20000 iterations when beta = 100.000

Evolution of the number of cities throughout 20000 iterations when beta = 316.228

Evolution of the number of cities throughout 20000 iterations when beta = 1000.000
